Abstract of JP 2003190976 (A)

PROBLEM TO BE SOLVED: To provide a method and an apparatus for treating wastewater capable of enhancing contact efficiency of wastewater and ozonated air and realizing a shortening of a retention time of wastewater in a reaction tank and reducing dioxins in treated water by an accelerated oxidation treatment combining O₃B>3/SB>/oxidizing agent/metal element. ; SOLUTION: The apparatus for treating wastewater is provided with a means for adding an oxidizing agent to wastewater and a means for dispersing the wastewater to a gas containing ozone. ; COPYRIGHT: (C)2003,JPO
